“Making learning experience more interesting and interactive”

The motto of our college is to provide quality education to girls, to enhance the knowledge and to make them better human beings. Stress is laid on regular classes and completion of the entire syllabus in the classroom so that students have a better understanding of the content. We believe that learning is an interactive process thus all the departments have their own clubs which conduct various activities throughout the year in order to make learning more interesting. These departmental clubs conduct quiz, debates, group discussions on topics related to their subjects from time to time. The students are encouraged to express their views on different topics through posters, plays, skits, songs etc. This increases the interaction of the students among themselves and with the faculty members. Generally it is seen that those students who participate in the activities demonstrate more positive relationship with faculty and show greater knowledge and better time management.
